

Watermelon Ice Cubes - Refreshing way to use leftover watermelon chunks! Add to your water, coconut water, cocktail, mocktail, smoothie, sky's the limit!

Ingredients

- ½ large watermelon
- Juice from two limes
- ½ cup filtered water or coconut water

Optional add-ins

- Fresh mint
- Jalapenos (to make spicy margaritas)

Directions

1. Cut the rinds off the watermelon and slice into large chunks.
2. Add watermelon chunks to a blender and add lime juice, water, and optional add-ins. Blend until smooth.
3. Either strain the juice using a milk bag or cheesecloth or pour mixture directly into ice cube trays. *Skim the foam off the liquid for smoother texture.
4. Freeze and enjoy in filtered water, coconut water, alcohol, smoothie, kombucha..sky's the limit!
